FEE Video Seminar Series

These videotapes preserve the best of actual FEE Seminar Lectures—capturing the wit and wisdom of five of our most popular speakers. If you can't attend a FEE seminar yourself—or if you want to acquaint others with the freedom philosophy—a FEE Video Seminar will bring these timeless ideas to you.

The new series is designed to enhance and supplement the FEE Classics Collection already available. Each videotape is approximately 60 minutes long and is in VHS format, professionally edited. A short introduction to FEE at the end of each message makes these videotapes well suited for use in classes or meetings.

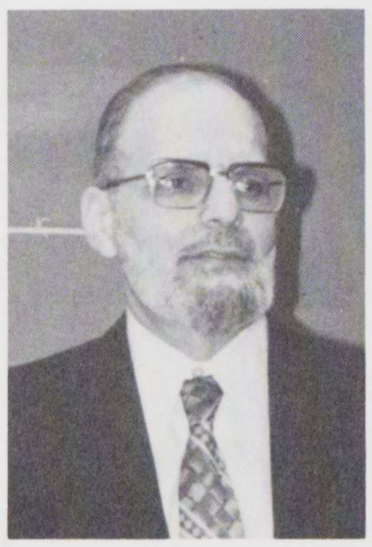
Exposing the fallacies of macroeconomics, Professor Ebeling of the University of Dallas demonstrates the dangers of deficit spending and governmental management of economic affairs and analyzes the effects of Keynesian thought in this century.



Israel M. Kirzner
COMPETITION AND ENTREPRENEURSHIP

A look at the role of the entrepreneur in society and his effect on competition. Dr. Kirzner, a FEE trustee and professor of economics at New York University, improves our understanding of the market process.

Hans F. Sennholz
THE GREAT DEPRESSION

Dr. Sennholz explodes the myth that the Great Depression was caused by unhampered markets and clearly shows that the disaster was the result of government intervention. An authority on monetary policy and business cycle theory, Dr. Sennholz gives a timely analysis of depressions in the wake of "Black Monday."

John K. Williams
