NO RIGHTEOUS NATION HAS EVER BEEN OR EVER WILL BE CONQUERED

To subjugate America it would be necessary to destroy faith in God, break the American spiritual and patriotic spirit, drag down the free enterprise economy to the level of Socialist Russia, confiscate civilian guns and disarm the nation. Impossible? A diabolical Plan to destroy the United States internally was put into operation. It was estimated it could be done in one generation, or about fifty years.

PLAN OF OCCUPATION

1. **Keep the surrender SECRET.** Glorify the UN as man's last hope for peace. Extol the UN Charter, as a document of world cooperation, the extension of our liberties under the Declaration of Independence and Constitution to the rest of the world. Maintain continual propaganda in churches, civic organizations and schools; annual UN DAY celebrations; UNICEF children's Halloween activities, UN tours, essay contests, mock UN councils in schools, all with heavy and constant media support, brainwashing children, to shape the minds of tomorrow's adults.

2. **Maintain and increase occupation personnel in key positions.** For years agents and dupes of the Conspiracy such as Alger Hiss, have occupied high positions in government. Professing to be loyal Americans, they are international socialists working secretly to betray us into a New World Order. In Congress, State Dept., Supreme Court and other key positions they wreak havoc with government policies. They are the advance cadre of the occupation army.

3. **Demoralize police, foment violence and fear.** Claim "police brutality," criminal "rights;" impede criminal justice and prison operations; abolish death penalty; foster civil strife between races, sexes, religions, labor; create 100,000-man federal police force **(goon squads?)**; offer Federal "assistance" to fight crime, leading to Federalizing local police, then to UN International police.

4. **Destroy religion, morals, patriotism and family.** Belittle faith in God; disparage religion. Persecute churches -- first, dangerous "cults", then all churches as cults. Ban free exercise of religion in public, the work place, and eventually in the home. Remove God, religion, morality from schools. Banish holidays for Founding Fathers and their ideas from textbooks. Corrupt youth with drugs, sex, pornography, abortion, suicide. Dumb down education; corrupt literature, music, art; bus children for racial balance. Breakdown traditional blood family relationships. Promote homosexual, lesbian lifestyle.

5. **Drag down the economy and living standards.** Destroy constitutional money to create inflation, enormous debt, leading to national bankruptcy. Impose costly, difficult, business regulations (such as OSHA, EPA, EEOC) with harsh fines and imprisonment. Exploit absurd environmental fears to curtail lumber, mining, grazing, fishing, and oil industries; weaken and nationalize banks; get people out of their cars.

Phase in cashless transactions requiring government ID card or bar-code imprints in order to buy or sell. Use trade agreements (NAFTA, IMF, WTO, GATT, etc.) to gain government control of US industry, and merge it into an international socialist economy under UN regulations.

6 **Disarm the people**. Fill media with lurid stories of gun killings. Obscure true gun facts; distort 2nd Amendment. Enact progressive gun control laws; make gun and ammunition ownership difficult, expensive and illegal. Finally, confiscate guns. Break down 4th Amendment protection against warrantless entry with "Drug Sweeps" and weapons sweeps, which the people will naively support.

7. **Total disarmament** and transfer of military to UN command, in accordance with State Dept. Document #7277. (1) Demoralize servicemen, dismantle US defenses. (2) Involve US forces in regional wars . (3) Final transfer of military to UN command, destroying remaining internal defenses.

8. **Officially proclaim the surrender**. Impose reign of terror; control food, supplies, transportation, communications; government ownership of all property. Control people with UN troops, secret police and electronic surveillance.

POSSIBLE VARIATIONS

As conditions develop, variations may change strategies without altering objectives. Widespread racial riots, mob violence might be a pretext for UN occupation forces to move in "to restore order". Increasing natural disasters, epidemics, transportation interruptions, shortages of food, gasoline, supplies and power outages, which paralyze our computer-driven society and breakdown industrial production show, that the conspirators don't have all the answers or control everything.

God is still in charge. He permits the Babylonians, Philistines, Goths and Communists, to destroy and conquer only to the extent of the iniquities of His people. If, pray God, a wave of repentance should sweep the country, and enough patriots with knowledge and courage will act, America can be saved.

AMERICANS FRUSTRATED AND ANGRY

Americans see it happening but few understand the cause. They are angry over taxes, debt, inflation, crime, godless schools, inferior education, health and insurance costs, unemployment, government interference in business -- 101 deplorable conditions. Angry at the President, Congress, the courts, elected officials; angry at each other; angry at everyone, **except** the real culprits. They are frustrated because they feel helpless. They want to amend the Constitution, re-invent government, "throw the rascals out"; embrace phony reforms or "good causes" that make things worse. They don't suspect that all this is planned and carried on through UN programs.

NONE DARE CALL IT CONSPIRACY.

The key to success of a conspiracy is for people to deny that it exists. Ridicule the "conspiratorial theory of history." Heap scorn on anyone who exposes it. This ignores the great Satanic conspiracies in all ages which have swept mighty nations into oblivion. It is documented beyond dispute by government, military and private investigations, and revealed in the conspirators' own writings, but reports are buried and warning voices silenced. The All Knowing media can tolerate communism, treason, criminality, immorality, godless schools and Waco tragedies. But God, Bible, Christianity, Constitution, chastity are "damned with faint praise" and if conspiracy is mentioned, they spew a torrent of ridicule upon those "radicals, fringe lunatics, Birchers" who expose it. **It is not so much the lies they publish as the truths they conceal that causes the greatest harm.**

The trust people put in the media is beyond reason. As babes at the breast of Mother Media, they suck their daily sustenance of managed "news", lift their skirts to avoid contamination by "extremists" and smug, complacent and "well-informed", turn to an inordinate obsession with sports.

WE HAVE SIGHTED THE ENEMY.....

Whatever our past ignorance, we are now without excuse. The issue is clear, the enemy is known, the line is drawn. By this we may know friend from foe: anyone who supports the UN or UN programs gives aid and comfort to the enemy. This includes millions of fine, but deceived, Americans who need to change sides quickly.

This message should resound through the halls of government, churches, schools, civic and business organizations, in every home and by word of mouth and every form of media. What is needed is millions of Paul Reveres, shouting the message, "The enemy is here."

The power to save America lies in the hearts, minds and muscles of WE, THE PEOPLE. A return to God and the Constitution would turn things around. The United States would regain leadership among friendly nations and the grudging respect of unfriendly ones. With UN regulations removed and the Constitution restored, major problems would yield. Heaven would smile upon us. Principles of the Constitution would spread outward to uplift other peoples. It would bring a golden age of righteousness, prosperity and happiness.

CAN WE GET OUT? YES, if...
