The Untold History

How the British East India Company Created Capitalism
and Its Antithesis Communism
By William Robert Plumme
$15.00

We have a limited supply of this rare, privately published volume which, early in the 1960's, broke the following ground in conspiracy theory:

.Power Groups. Plumme was the first to apply the concept of "power groups" or "social organisms" to the ruling class/conspiracy theory of history. Bridges the gap between conspiracy and history.

.Pre-Fabian Radicals. Conspiracy theorists tend to be partisans siding either with the "right" or "left". Though "conservative" in orientation, Plumme is one of the few to break free of this carefully laid trap. Plumme shows how "Pre-Fabian" employees of the Crown's East India Company such as John Stuart Mill, Ricardo, Jeremy Bentham, and Adam Smith served the conspiracy just as surely as did the later "left-arm" Marxists and Fabians.

.Geopolitics. Covers Mackinder's and Haushoffer's geopolitical theories. Sanitized versions of conspiracy's game plan for public consumption?

.Pre-Quigley Analysis of CFR and Royal Institute. Colonel House, Toynbee, Rhodes, Milner, et. al.

And Men Wept

.British Israel in America

.Andrew Carnegie's Anglophilism

.British Role in League of Nations and the United Nations

.Atlantic Union Conspiracy

.Winston Churchill: Enemy of America
