
Peace is very special

Peace is very special
And it should be here to stay
War is not necessary
Peace should never go away
If people could just work things out
With words and peace and song
Then our countries would be happy
And our world would get along
Peace is what we're praying for
To come and stay and last
We wish for peace in future times
And wish that war is past
And if there is war tomorrow
We'll wish for peace, and then
Hopefully, the war will stop
And we'll have peace again.

The Dove

Many say "peace" and do not know what it means.
Some say "peace" and know only how it seems.
Few say "peace" and say it from the heart.
And only a precious few even take part.
Peace to me is love expressed by life.
Peace to some is love outruling strife.
Peace to few is always accepting all
And there are only a few believers in all.
I believe that peace will come someday.
I believe in bonding far away.
I believe in love and only love
And I believe in the symbol for peace, the dove.

Let There be Peace on Earth

Let there be peace on earth, that simple glorious song.

It expresses the feeling of peace when there was war, love when there was hate, happiness when there was prejudice and discrimination.
Why is the world still like that?
Why can't it be peaceful like in that song?
Why?
Everything is so unpeaceful, no one cares anymore.
A child can't understand the world today.
No way, Jose'.
Why? Why? Why?
WAR!
That's why.
Why war?
Tell me.
All anyone can do these days is wonder and worry and not even care.
Why?

Peace is Loving

Peace means many different people loving each other all over the world.

Catherine Stanton
