Here is a copy of the Title page from a very important book in my library...Dated 1858...Once in a great while you might find a copy on an old bookstore shelf.

The author properly identifies Russia as a latter-day enemy of the United States...Several astounding statements are made which have seemingly come to pass in our day....

A great religious threat to American Freedom is clearly pointed out by Mr. Baldwin. Did he "see" with "prophetic eye" what many of our day cannot, do not want to; or, will not see?

Note: The Author did see THE UNITED STATES 'in' the Bible! A most magnificent claim for so long ago.
