(This back page is not printed on the 535 copies personally delivered to the offices of every Senator and Representative - as described below)

Very soon the Congress and Administration will act on Israel's request that US taxpayers guarantee $10 billion in loans. Such a guarantee will require that hundreds of millions of dollars be diverted from urgent domestic needs.

Will those who decide how those tax dollars of yours are spent do so on their own - or will YOU tell them what YOU want?

Some claim that one phone call to The White House represents 10,000 silent voters. We urge you to call. State your points succintly. Say:

- *Where you are from (no name necessary),*
- *That you are aware of Israeli injustices against Palestinians inside as well as outside Israel,*
- *You appreciate the Administration's efforts regarding the Middle East peace conference, and*
- *What YOU think about Israel's request for loan guarantees. For example, (1) linkage to the peace talks, (2) Israeli human rights practices concerning Palestinians, (3) cessation of starting or expanding settlements, (4) domestic programs that need the money that must be set aside for these guarantees.*

The number of the White House comment line is **202-456-1111.** A similar call to the State Department will also be helpful: **202-647-6575.**

And, of course, call the offices of your Senators and Representatives. Phone **202-224-3121** and ask for the office you want.

AAPHR is an information clearinghouse. We seek to assist in increasing public awareness of Israeli violations of Palestinian human rights. We operate a 24-hour voice information service for the public, and solicit inputs from other interested organizations. We also publish Bulletins, such as this, based on statements and data from 'significant others.' Mailed to individuals, organizations, and embassies, our Bulletins are generally carried to the offices of every US senator and representative. That is done by volunteers of Women Strike for Peace, who understand the issues and seek an audience with the member or his/her staff.

A result of the Middle East peace process is fewer donations to AAPHR. We understand the hope that diplomacy will lead to a lasting peace. We would like to soon publish our final Bulletin, announcing our closure because the world community has justly ensured the human rights of the Palestinian people! Clearly that will not happen soon. We therefore ask that you send a contribution so we can continue our efforts. Our staff labor is 100% voluntary, but we urgently need money for supplies, printing, postage, etc. Donations to AAPHR are tax deductible under section 501(c)(3) of the US tax code.

Please, we need your help!
