awful situation and act soon, they face loss of freedom, family, religion and all they hold dear, under a reign of violence, bloodshed and terror, and for those who survive, slavery.
The UN Charter is the instrument of surrender.

UN CHARTER --TERMS OF SURRENDER

- Article 25 *"The members of the United Nations agree to **accept and carry out the decisions** of the Security Council."*
- Article 27 All members will **refrain from use of force**, (even in self-defense, except as directed by the Security Council)
- Article 43 *"All members will **make armed forces available to the UN as determined by the Security Council."***

Article 25 subordinates the Constitution, laws and courts to Security Council orders and places the life, liberty and property of every American under UN regulations. That is known as UNCONDITIONAL SURRENDER.

Article 27 abolishes Congress' power to declare war even in self-defense.

The United Nations Organization is the machinery for ruling the world.

Article 43 commits US military to endless, winless UN wars (Korea, Vietnam, Saudi Arabia, Somalia, Bosnia, Rwanda, Haiti, etc.) to gradual transfer of US military equipment and personnel to the UN Military Staff command. This is progressing rapidly, with Americans now fighting under foreign commanders for the first time.

We were lured into the United Nations on the foolish assumption that the Communists who were killing and conquering all over the world, would suddenly become peaceful and friendly. The UN did not stop Communist aggression but took over and continued it. **The UN Charter blocks a member from defending itself, and other nations from aiding it.** The UN orders boycotts, blockades and military action against peaceful, non-communist nations. For example, the US boycott, on orders of the UN, was instrumental in the recent overthrow of non-communist South Africa.

It is believed that in ratifying the UN Charter as a **treaty** binds the United States to "ACCEPT AND CARRY OUT THE DECISIONS OF THE SECURITY COUNCIL." Also, that the Security Council is supreme and it's decisions override federal and state constitutions, laws and courts.

AN INTERNATIONAL CONSPIRACY CONTROLS UN.

Americans must realize that this criminal conspiracy **designed the United Nations Charter** to give them control of both the Security Council and the General Assembly, thereby controlling all nations.

The UN Charter in full operation would mean:

The end of the United States as a nation, making it a mere province in a New World Order, with one vote among 186, mostly hostile, nations. States and counties merged into regions, with UN appointed officials enforcing UN orders, while practicing extortion on us helpless serfs.

Transfer (*surrender*) US military to UN under Russian commanders, leaving America defenseless. UN troops policing US cities. Complete disarming of citizens.

American men and women conscripted for military service in faraway jungles, deserts and icy wastelands in continual UN wars.

Constitutional system of justice (warrant, indictment, due process, venue; jury, counsel, witnesses, habeas corpus, appeal, redress, etc.) replaced by the World Court, an oligarchy without written law, due process, counsel or appeal.

Freedom of speech and press abolished.

Persecution and suppression of religion, government imposed atheism. Secret police, electronic surveillance of every person day and night.

Abolish the traditional family; childbearing with

government permit only; children raised in government nurseries. Men and women housed together in barracks.

Education -- indoctrination -- under strict UN control.

Standard of living reduced to bare subsistence or starvation levels. Food and goods rationed on government ID card or bar-code imprint. Hours standing in long lines for bare necessities. Automobiles for officials only. Prison camp forced labor or liquidation for non-submissives.

Other slave state measures too numerous and too dreadful to mention here.

Even if the conspiracy falls short of its full objectives, and the Constitution is somehow restored, the costs already incurred and those to come are horrible to contemplate. The appalling thing is that Americans are supporting such measures willingly and cooperating in their own destruction. They embrace deceptive "reform" programs such as IYF (the UN International Year of the Family); absurd environment notions of ozone holes, greenhouse warming, free trade, crime control, rights of the child, health care, education reform, civil rights, discrimination, hate crimes, civilian police review, separation of church and state, busing children for racial balance, women's rights, population control, wilderness and wildlife preservation.

UN CHARTER -- Masterful Deception

The UN Charter is like the fisherman's fly, attractive but deadly. Glowing phrases deceive good hearted but unwary people. Slogans of peace -- freedom from the scourge of war, cooperation for world prosperity, upliftment of the downtrodden -- conceal the hooks of surrender and slavery.

The VETO power was to protect us from any Security Council action contrary to our interests. That was a delusion. The promise that the UN would never interfere in our domestic affairs was a monstrous deception. UN Resolutions now touch every element of our lives,

The UN was formed with 51 long-established nations, a majority of which could always preserve traditional laws and culture. Soon, however, over 100 small communist-controlled tribal nations were admitted as full members in the General Assembly. The United States, now with one vote out of 186, is virtually powerless.

The UN was to be an association of independent nations cooperating for peace. But members don't control the UN; the UN controls the members. In name only are they sovereign states; in reality, mere provinces in a world dictatorship,

Tricking us into surrender was surprisingly easy. The Senators didn't read the fine print; most of them didn't even read the contract. The Conspiracy did its job well.

It may be truthfully argued that the UN Charter is void, being perpetrated by fraud, or *ultra vires* -- beyond the Senate's authority. The stark reality is, **we did sign the treaty, our courts have upheld it**, and **we are operating under it** with tragic results.

SURRENDER IS NOT OCCUPATION

Signing a surrender paper was one thing; **taking over the country was another matter. The UN had no army of occupation**. With the motto "In God We Trust" 200 million Americans, righteous and morally strong, with a patriotic love for flag and country, were unconquerable. US Military forces were invincible. Loyal military officers and men, National Guardsmen, Sheriffs, Local Police, sworn to uphold the Constitution, would refuse to obey treasonous orders. Citizens with 150 million or more guns would resist. The matchless free enterprise economy was out-producing the world. As Lincoln said, all the armies on earth could not
