(4)

- In the future to build a university in the country for popular education.
- Construction, renovation, and enlargement of educational buildings
- We insist on free education for the country and the city.
- Trying to change the traditional curriculum scheme which the government has.
- Supply of furniture, libraries, office, clothing for the students.

4. Literacy for adults

We think it is necessary to expand the literay classes we have in the community and bring them to others who don't have them.

- To implement a technical and vocational school, offices, workshops.

General Health

1 - We are working currently with 8 promoters.
2 - Clinical laboratory in preparation.
3 - Dental clinic
4 - Health consultation for the population 2 times daily per week and emergency.

All are in training 1st and 2nd level [and] first aid. [MS pg. 6]

- Monthly they do nutritional control of children.
- Monthly they have talks on [hygiene?]
- Every 2 months there is vaccination
- They are implementing latrinization [construction of latrines]
- The place for the clinical laboratory is now built.
- We still need to improve and supply with better furniture the three health centers
- We still need to start a project on homemade (natural) medicines
- We are lacking funds for emergencies
- Doctor's assistance for serious patients.
- Seeking legalization of the promoters.

PROMOTION OF WOMEN

- There exists at least 50% of the women included or members of the workshops, education, health, day-care, embroidery, agriculture

- They need educational preparation
- to open more workshops, [jarcia], bakery
- The chicken project
- Open more small restaurants
- To organize 100% of the women

PASTORAL

- There is a responsible person and a second responsible person
