"All your Argentine friends, lovers of freedom down here, deeply regret Leonard's death and always will remember his great help in our fight for liberty."

Alberto Benegas Lynch, Sr.

"Many friends in Guatemala who are grateful to be influenced by Leonard's teachings express their deep sorrow to all his family and associates at FEE on his passing."

Manuel F. Ayau and Directors
Universidad Francisco Marroquín

"I was very sorry to read that Leonard had died. He was a great and gentle man. It's wonderful that all one's memories of a close friend are happy ones.

I admired him for his clear vision of the evils of this contemporary society, both in the East and West. But I most admired him for his belief in and defense of principle, especially that of the freedom of the individual.

You have my deepest sympathy on your great loss and the loss of the country of one of its staunchest defenders.

I'll offer Mass for the repose of his soul."

The Reverend Edward A. Keller, C.S.C.
Notre Dame, Indiana

"My sincere condolences to everyone connected with the Foundation and all of Leonard's family following his death this weekend. As a schoolboy, I met Leonard at the time he was creating the Foundation. He was a source of tremendous inspiration to me and many others at that time and ever since. The beneficial effects of his life's work are incalculable but beyond question he left this country and indeed this planet a markedly better place for having been with us."

Roger Lea MacBride

"It seems to me Leonard went beyond human limitations to accomplish his life's purpose. He is one of the great men of our time. His life was dedicated to setting the ideal way by seeking truth. It is a very difficult task. Now that he has made his transition to the next life, we are left on our own to show ourselves and others who observe our performance that we have the fortitude and determination to hold the course he has set and help light the way. I will always be thankful God gave me the opportunity to better my life by being one of Leonard's students and associates. He gave us what we needed. Now we can take it from here."
