Mr. John R. Bartelt
American Consul
American Consulate
Belém, Pará

Dear Mr. Bartelt:

Attached is a copy of a letter from Dr. Anderson of the Population Council. I am sure either Dr. Pease or Dr. Anderson would do all they could for us but I believe they are now receiving so many requests that it is becoming difficult.

In any event, I see no particular difficulty if the representatives of the various companies could get together there and place an order for the loops, I am sure you would have no difficulty receiving them.

If I can be of additional assistance please let me know.

Sincerely,

Eugene P. Campbell

Dear Gene:

Your letter of March 31 arrived just as Cliff was leaving the country, so a reply has been left to me.

We would like very much to be helpful but I'm afraid that we could not provide loops for companies, missions, etc., which desire to initiate programs for the wives of their workers and others. As you know, practically all the modern types of IUDs are patented, and the basic patent for the loop is now held by Ortho Pharmaceutical Company. In view of our previous support to research on the loop and our previous agreement with Dr. Lippes, we have been granted the right to distribute loops for research projects and for governmental family planning programs. We do not, however, have the right to give loops to other organizations or to private individuals, clinics or hospitals. I'm afraid, therefore, that in such cases IUDs will have to be obtained through commercial sources. In this connection I am enclosing a memorandum giving sources of commercial supplies.

I regret very much our inability to be more helpful. With personal regards.

Sincerely yours,

Richmond K. Anderson, M.D.

Dear Bill:

The Consulate has had some inquiries regarding the obtaining of "plastic birth control devices". Could you assist in this regard?

Mr. John R. Bartelt
American Consul
American Consulate
Belém, Pará

Dear Jack:

Many thanks for your note of March 24, 1966 with a request for "plastic birth control devices".

I have given your note to Dr. Campbell who talked with you about this matter back in November. He has already made some inquiries and will be in touch with you in the near future.

Sincerely,

WAE

OFFICIAL INFORMAL

UNCLASSIFIED

Mr. John R. Bartelt
Dear Bill:
American Consulate

1. The Consulate has had some inquiries regarding the obtaining of "plastic birth control devices". Could you assist in this regard?
2. Certain companies, missions, etc., desire to imitate programs for the wives of their workers and others, and request assistance in obtaining the gadgets. Doctors trained for the insertion procedure are available here, to a limited extent, so technical or training advice is not, for the present, being requested.
3. An early reply would be appreciated.
4. With kindest regards.

If I can be of additional assistance please let me know.

Sincerely,

Sincerely,

John R. Bartelt
