Further to telegram No/ of today and in compliance with your telegram AIDTO 448 our firm estimate on student enrollments during the School year 1963-64 is as follows:

Curr. Area	Current year	1963-64
1. Kindergarten	18	xx 18
2. Elementary	79	xx 207
3. Elementary students awaiting admission. No. facilities now.	(41)	(Included item 2)
4. Secondary	10	xx 50
TOTAL	107	275

Note:

- () - Not included in total
- xx - New kindergarten group
- xx - Figures include expected fifty per cent increase in official family at this post, some children now in attendance in Rio, but who will join us upon completion of the school year, and, schooling needs of the expanding American Business Community.

Attached to this airgram is a "site analysis" sheet and four preliminary rough drafts depicting various aspects of the structural design of the school plant, prepared by Mr. Wit-olaf Prochnik, a Brazilian Architect,
