principle
Foreign Ministry has accepted in ~~prinsipat~~ idea of further policy planning talks in Washington this year but despite several follow-ups, has been unable suggest dates. Problem is that majority of participants will come from Foreign Minister's own cabinet and difficult to forecast time when they can be spared here. Foreign Minister's Chief of Cabinet Souto Maior says July talks are still a possibility but until Silveira personally approves a date, matter must remain indefinite. Embassy continuing follow-up.
