

YOU CAN GIVE AIDS...

to your unborn baby without knowing it if you are infected. Remember, your partner can give you AIDS, and you can give it to your baby.

IF I WANT TO GET TESTED

for HIV (the virus that causes AIDS),
what should I do?

For information about testing, call the Alternate HIV Antibody Testing Site at:

(617) 727-9080 (24 hrs./day, every day)
(617) 522-4090 (call collect Mon.-Fri., 8am-6pm),
(617) 267-0159 (English/Spanish/ Portuguese; Mon.-Fri.,
8:30am-5pm, Fenway Community Health Center)

Whether you decide to get tested or not, it is important to always protect yourself.
