PREFACE

Before proceeding further we must first discuss the two distinct segments of the present day Nazi movement. First we have the OLD GUARD NAZIS: the former Nazi Party members, German Army, Navy, Airforce, S.S., Quislings, escaped war criminals, and collaborators. The diehards who survived the Hitler holocaust ---people who have a living memory of the bad old days and would like to see, for their own twisted reasons, the return of Nazism.

The other group is the NEW GUARD NAZIS; they are the younger generation of warped personalities who have adopted Nazism as their creed. Most of the NEW GUARD were either too young or not even born at the time of Hitler's short lived thousand year Reich. Many of them were converted to their twisted ideology of hate by the propaganda and rantings of the OLD GUARD. The NEW GUARD are the ones who take to the streets swaggering in stormtrooper type uniforms with swastika armbands, flaunting race hatred, desecrating houses of worship, and committing other violent acts.

As a symbol of the rebirth of Nazism on Christmas eve 1959 a swastika was smeared on a synagogue in Cologne Germany. This was the sign to Nazis around the world that the blood drenched twisted cross had arisen, like a phoenix, from the ashes of Hitler's Germany---the evil spectre of Adolf Hitler had returned to haunt the earth. This was the signal for an outbreak of swastika smearings that spread throughout the world. A reminder to mankind that the warped ideology of National Socialism was not yet dead.
