AEC shipments through Embassy to Brazilian
collaborating institutions

Pursuant request contained in your unnumbered telegram of August 14, we can now assure you that the items shipped have been received, cleared through customs and delivered to the Catholic University. Further check on September 10 provides additional assurance that, upon being uncrated, the materials were in perfect order.

The Embassy appreciates being notified of this shipment and the Scientific Attaché requests that he be alerted on all such shipments. Often packages arrive from AEC NYK addressed to Embassy, care of Scientific Attaché, with no indication whatsoever as to final destination. The Embassy is pleased to assist in the joint U.S.-Brazil collaborate effort, but when items are received without indication of destination, much confusion is caused and much time lost.

For the Ambassador:

André C. Simonpietri
Scientific Attaché
