

"Truth to the People..."

"No man escapes when freedom fails
And good men rot in filthy jails
While those who cried appease, appease
Are hanged by those they tried to please."

YOUR INVITATION TO BECOME A MEMBER

THE PAUL REVERES OF AMERICA

AN IDEA "ASSOCIATION" WHOSE TIME HAS COME

"A STATEMENT OF PURPOSE"

WANTED

Americans who are concerned about what is happening to liberty and freedom in the Good Old USA. Stop the destruction of liberty, our country and freedom.

Join the Paul Reverses of America voluntary association and become active for freedom, for restoration of the Constitution, freedom of religion and restoration of property rights. America has come from **a nation under God to a nation against God**. The sellout to evil is almost complete thanks to Congress, the sleeping churches and sleeping citizens! We believe the enemies of constitutional freedom are in near complete control of the American news services.

Life - Liberty - Property - are the 3 main elements of freedom. #1 is life and with it is the inherent right to defend or protect it. We want to re-establish those Constitutional rights which have been either taken from us or seriously weakened.

Who are The Paul Reverses of America? Answer - Common everyday citizens choosing to act as individuals who are tired of seeing their liberty and country destroyed and are willing to do something to save it. Our motto is, "Give us liberty or give us death." The Paul Reverses was actually started about 15 years ago, but leaders felt the time for a push and go was not right. We feel the time has come.

Are the Paul Reverses a tax strike group? Answer - No, but we will be extremely active in getting tax law changed. Butting heads with the IRS will only hasten the Police State. Our stand is to pay the taxes, but work through education to change the law. This must be done by changing Congress. **What Congress has allowed Congress can change.** (Write Paul Reverses for a copy of 535 Who Are Responsible.) This tells where the real blame lies.

Is the Paul Reverses a religious organization? Answer - Yes and No. Yes, in that we are for religious freedom for everyone as given under the Constitution. That Congress can make **no** law denying the free exercise thereof. While Congress has made no law, **the judges have** and this too can be changed by political action committee, separate from the mother organization, so you can be active with coordinated support in the election process in your county and state. Members come from all religious faiths. We do believe in God and that under the guidance of our forefathers, who honored God, America was blessed as no other nation in history. We do not have to agree 100% on religion, what we want is freedom to worship or not worship as one desires. We can go forth in agreement on this.
