

Economist, Dr. Murray N. Rothbard, and journalists, John Chamberlain, Dean Russell, and Samuel B. Pettengill, are among the other part-time members of FEE's senior staff.

The Foundation is further staffed by persons skilled in the handling of publications, mailings, library research, records and accounts, secretarial work, and other tasks vital to its operation. There are 50 full-time employees.

Needless to say, the Foundation staff has grown, and there have been changes in personnel since 1946. Such change is not unusual, particularly within a group searching more for freedom and its opportunities than for security and its betrayals. To help individuals discover their potentialities and then to release them to new and greater opportunities in industry, journalism, teaching, and other occupations is considered an important function of the Foundation.
