

Dear Pastor Alamo:

I don't know much about your church other than what I read in a pamphlet given to me by an earnest God-fearing man of conviction when I visited Cleveland last spring. I have been up many nights since that important day in my life, discussing your thoughts with my wife and studying your references to the Word of the Lord in our family Bible. I have also read some absolutely shocking history books on the pope and Catholicism. For example, the satanic knights of Malta, which is controlled by the Vatican, included in its membership Franz von Papen, the May, 1932, Chancellor of Germany who put Hitler in power in January, 1933, and was rewarded for it with the position of Knight Magistral Grand Cross in April, 1933! This old and all-powerful organization lives on today, and its members currently include Lee Iacocca, William Buckley, Alexander Haig, and a whole bunch of others appointed by Reagan to high positions such as the head of the CIA William Casey, the head of U.S. propaganda to eastern Europe James Buckley, and the ambassador to (where else!) that satanic cesspool, the Vatican! Then there are the Fascist and Nazi connections with anti-Christian Masonic lodges and the drug corruption discussed in the book God's Banks. And the horrible things done by this church in the name of God down through the ages--popes with hands dripping with blood! "Genocide Treaty, FBI, and the Neo-Nazis" put me on the path to Jesus and it's opened my eyes. My wife and I have said the prayer of salvation. We want to help others. Please send church information and all your other pamphlets so I can distribute them to friends and neighbors. I want to save souls before it's too late!

God bless you, Pastor Alamo. Yours in Christ, R.A. from Canada

I'm writing inquiring the price of your article titled "The Pope's Secrets." I know several ministers who would be interested in this material. It's very enlightening and I believe it. Keep up the good work. I don't feel a person can get too much of this type of information. To be forewarned is to be forearmed. I appreciate the article and I would like to distribute it. Thank you for your research.

Very sincerely in the Master's service, F.B. in St. Louis, OH
