

19. He has fought bureaucratic dictatorship and has drained billions of dollars out of Washington into the local governments, such as counties, cities and states where the local school boards and the local councils and the local and state governments have determined how the money shall be spent instead of federal bureaucrats.

20. He has proposed a system for meeting the emergencies of catastrophic illness and ailments, the expense of which cannot be borne by the private citizen and he has recommended his health measures under the slogan that the doctors will be employed by the patients and not by the Government of the United States. If the Kennedy plan offered in opposition to this plan were passed, it would increase our taxes \$42,000,000,000 (forty two billion dollars) per year.

21. He surrounded himself with strong, intelligent men who have been the victims of perjury, false testimony and conspiratorial frame-ups. With few exceptions, the men who have been indicted and convicted in the press and on the air before even coming to trial are good, noble men and in driving them out of the Government, it has created a great loss for the American people.

22. In the face of the demagogues and the fools and the panic stricken nuts, he opposed gasoline rationing and prophesied that it would be solved without rationing.

23. In the face of great persecution he resisted the ecological nuts and led in the restoration of a situation where we can now use our coal and nuclear power and shale-filled mountains and the unlimited deposits of oil in the oceans.

Yes, the same American Civil Liberties Union and its villainous clan that are leading and financing the campaign to destroy our President might, with the help of the treasonable network and the corrupted press, impeach him and convict him, but he will go down in history as one of the greatest Presidents that ever lived and if he is abused beyond his power to resist, he will be classified in history as a martyred statesman.

THE VICES OF THE ENEMIES MOBILIZED AGAINST OUR PRESIDENT

1. The conspiracy calls for the judicial judgments against the President and his friends to take place in Washington where 90 per cent of the people are Black and most of them are against Mr. Nixon.

2. The grand jury being manipulated by Judge Sirica is made up of 21 people, 16 of whom are Black.

3. The enemies of Mr. Nixon are building their whole case around the perjured testimony of one witness, Mr. John Dean. He seems to be doing pretty well. He just purchased a home in the most exclusive residential section in Los Angeles for \$150,000.00.

4. The gang that would crucify our President glorifies Daniel Ellsberg, the mouthy neurotic who cooperated in the stealing of military secrets out of the Pentagon that were passed into the hands of our potential enemies and given to the corrupt press. He is now being glorified as a hero and those who attempted to prevent this thievery and expose it are being sentenced to prison.

5. Any potential convict who convinces the prosecutors and the Ervin Committee
