

"If the Jews have their way, the blood of every American boy will be made available to their imperialistic ambitions to establish a World Government headquarters in Jerusalem under the direction of apostates operating out of the synagogues of Satan.

"PROPAGANDA CHALLENGED: General C. A. Willoughby, now retired, was the man who handled all of General Douglas MacArthur's Secret Service activities in the Orient. In fact, he was known as MacArthur's Intelligence aide.

"Recently he made a speech in Washington, D. C., and branded the propaganda that was put out concerning Germany prior to World War I as fraudulent. . ."

"In his (the late David Lloyd George) speech he went on to say that America was strictly neutral and that there was even much sentiment toward the United States going into the war on the side of Germany. The Zionists called on the heads of the German Government and boasted that their propaganda machinery could bring the United States into the war on whichever side would do the most for the Zionist Palestine ambitions. The Germans did not make a good enough offer to satisfy the Jews, so they went to England and exacted the Balfour Declaration. Upon closing the deal with the British officials, they then proceeded to beat the war drums in the United States, and in this speech David Lloyd George actually tells the British people that the Zionist Jews were the ones responsible for bringing the United States into the war on the side of England. What a scandal! What a boast! What a shame! Yes, what a confirmation of General Willoughby's statement quoted above."

"ZION'S SATELLITE: Anyone who seeks to understand French politics must assume at the outset that France is dominated by official Jewry as perhaps no other nation on earth. "Dispatches coming out of the Middle East now reveal that French jets were in Israel before the attack was made on Egypt. The spokesmen for the Palestine Jew government issued a special statement by saying, 'We have one real ally--the French Government.'"

"ZIONISM AND NAZISM: A few of you, perhaps, know that the Arab World today is facing a dangerous World Zionist Movement, which is not only to be found in Israel but whose headquarters is in New York City. A few of you, perhaps, know that this movement aims at expansion in the Middle East, building a Jewish State, a purely Jewish, a big state, extending from the Euphrates to the Nile. Indeed, only a few know that the philosophy of Zionism aims at bringing in more immigrants, acquiring more lands, and displacing more people. Only a few of you know that we are not opposing Jews because they are Jews. Judaism is a religion which we respect, but we oppose Zionism, which is entirely different. It is an aggressive, political movement which is similar to Nazism. Both Zionism and Nazism hold to the concept of race. Both hold to the concept of the Nazi supreme or the Zionist chosen people. Both hold to the concept of space 'lebensraum'. The Zionists want a space to be
