Just a reminder that your subscription to the Project expired/will expire with issue #_____ of the year _____. Because of our severely limited resources no extra issues will be sent after the expiration issue. If you want to see the Project improve and expand please renew or contribute now even if your subscription has not yet expired. The last Project issue you should have received was the Jan-June 1987 (erroneously dated 1984!), Volume IV, Number 1-5.

Subscribe or Renew before August 20th, 1987 and receive Gary Allen's new Say No! To The New World Order completely free of charge. A \$5.95 value. You may substitute for similar value, if you desire.

The July-Aug-Sept Project (Volume IV, Numbers 6-7) will be mailed approximately September 1, 1987. Here is your preview:

1. The British Empire (Overt and Covert) is the Central Phenomenon of World History Since the Takeover and/or Destruction of Roman Catholicism. Editor defends subtle Project manipulation theory against the above alternative suggested in a letter to the editor.

2. The British Empire (Overt and Covert) was the Central Phenomenon of the Modern Era until its defeat by a resurgent, Machiavellian Vatican (that pulled victory from the jaws of defeat after WWII).

3. The Hanseatic League: Progenitor of the "Empire of the City". Hanseatic Merchant Princes: "Rothschilds" of the "pre-Modern" era? Front for the Princes of Germany from whom the British Royal Family descended? Relationship of the Hanseatics to the Jewish traders and bankers of the Middle Ages.

4. Exploration of the concept of "Commercial Imperialism" and "Trading Organism" ("Collectivism in Business") from the Hanseatics to the British East India Company to USTEC (US-USSR Trade and Economic Council).

5. Review of the anonymous Occult Technology of Power: The Initiation of the Son of a Finance Capitalist into the Arcane Secrets of Political and Economic Power. Review, critique, and proposed update!

6. Critical review of Avro Manhattan's The Vatican's Holocaust and Murder in the Vatican. Manhattan is always worth reading, but must be brought to task for his shameless cover-up of his Queen's power blocs and for his failure to look behind the robotic facade of the CIA and KGB to the world's real power brokers.

7. None Dare Call It Conspiracy Re-Treads. Like it or not, most conspiracy researchers owe something to the late Gary Allen's None Dare Call It Conspiracy. Review of his posthumously published Say No! to the New World Order and Larry Abraham's (Gary Allen's former research assistant) and Gary North's Call It Conspiracy. Are the "old hands" slipping? Retreating from their best insights?
