John Witherspoon:

An American Leader

By Matthew F. Rose

Suggested Donation: \$13.00

Soft-cover, 85 pages

Order code: BK027

Historian Garry Wills called him "the most influential teacher in the history of American education." Ironically, you may not recognize the name of this revolutionary teacher and preacher. John Witherspoon's legacy, however, proves him to be a key figure in the founding of the American republic. Witherspoon signed the Declaration of Independence, and spurred patriotism from the pulpit, and as president of the college that would become Princeton University, Witherspoon taught and mentored a future U.S. president and vice president, 77 members of Congress and three Supreme Court justices. This long-deserved biography brings to life this faithful patriot and educator and the revolutionary era in which he lived. With its beautiful period lithographs and rich artwork, *John Witherspoon: An American Leader* offers an enduring example of one man's life and works and what a Christian's involvement in the world can accomplish.
