Voice of our ANCESTORS is considered one of the foremost inspirational books on Aryan pride. Originally in German, this work was written to stir the Teutonic spirit in Germany during the rise of the Third Reich. Today it still carries the same dynamic impact to those who seek to understand the true essence, extraordinary vigor and bravery of our European forebears.

14 WORD PRESS and WOTANSVOLK now present this timeless narrative by Wulf Sörensen in an artistic and flowing format that does justice to this highly recommended tapestry of the Aryan Spirit.
