

PART C. LITERATURE PACKS

Literature Packs consist of articles and/or resource bibliographies. Some of the articles are reprinted from previous issues of *The Exodus Standard*. Others have been written especially for Exodus, or reprinted by permission of the author. Resource Lists (bibliographies) present brief descriptions of such materials as: articles, audiotapes, brochures, books, testimonies, tracts, etc., on a given topic. They also give ordering information for materials available directly from Exodus member ministries and other organizations. Prices vary according to length of the Literature Pack and amount of work involved in creating it. Literature Packs are available only as a unit. Please fill in the number of packs desired, and the amount in the total column at the right. Transfer the Part C-1 and C-2 subtotal amounts to page 4.
