

The Constitution of the United States vests the sole power to declare war in Congress. Until Congress has exercised that power, it is not only the privilege but the duty of every citizen to express to his Representatives his views on the question of peace or war - in order that this grave issue may be decided in accordance with the will of the people and the best traditions of American democracy.

The America First Committee, in the interest of peace, honor and constitutional government, respectfully asks that a resolution be submitted to Congress demanding that no American "technicians" be sent to the Middle East. Sending American "technicians" to the Middle East can only serve as a trip wire to involve us in another Vietnam type war in the Middle East.

The Principles of the America First Committee are as follows:

1. The United States must build an impregnable defense for America.
2. No foreign power, nor group of powers, can successfully attack a prepared America.
3. American democracy can be preserved only by keeping out of the Middle East War.
4. "Aid short of war" weakens national defense at home and threatens to involve America in war abroad.
5. To bring together all Americans, regardless of possible differences on other matters, who see eye-to-eye on these principles.
6. To urge Americans to keep their heads amid rising hysteria in times of crisis and to dedicating themselves to avoiding involvement in any more U.N. type "no win" wars.
7. To provide sane national leadership for the majority of the American people who want to keep out of the Middle East war.
8. To register this opinion with the President and with Congress and to exert every effort possible to keep AMERICA FIRST and avert any actions that would lead us into another U.N. inspired "no win" war. If we are to enter conflict again - let it only be in defense of our Republic and by act of our Congress!

Contributions are urgently needed for postage, past due bills, and to help us reach others. We have expanded at a rate we never dreamed possible - but funds are needed to continue with our efforts. So please join with us today in helping to turn the tables on the Kissingers, Rockefellers, Kennedy's and the rest of the political rodents who are gnawing away at the heart of our nation.

Sincerely yours
for Christ and America!
