We do not propose to run conservative candidates against conservative candidates but will endorse and support all candidates regardless of party label whose philosophy conforms to ours.

However, we will encourage those candidates to run under our banner who feel that the label of 'democrat' or 'republican' might be a hindrance or detriment to their success.

We will also demand that specific basic text books namely: spelling, reading, science, arithmetic, English, American history, geography and writing must be supplied each student.

We will inquire and report why our tax dollars are used to purchase school books which have been written by people who have been cited as Communists and Communist fronters.

We will demand to know why anti-Communist books are not available for student use, as are the anti-free enterprise books.

We propose to study all County and School budgets and expose and oppose any contemplated expenditure which appears to be of an extravagant nature.

We will do our utmost to prevent any individual or group of people from moving into any area which will decrease or destroy property values or create strife, turmoil and crime.
