

"SOUNDING BRASS AND TINKLING SYMBOLS"

A scathing exposure of the Bob Jones most unusual University was recently brought to our attention in a letter written by a young student of B.J.U., to a close friend.

This student was instantly killed by a train as he walked the tracks at midnight memorizing scripture. Shortly before the Lord took this choice young Christian home to Himself, he had written this letter, and we herewith give quotes, describing the true Spiritual condition of the ones in control at B.J.U., which by the way has been well known by many spiritually minded Christians for many years past.

Here we have concrete evidence as to the spiritual bankruptcy of these self glorifying leaders. All this weighed heavily on the spirit of this young lover of the Lord Jesus.

I quote, "We have been starving for a good discussion with some one on the Word of God. We get the feeling of speaking a foreign language when we talk about spiritual victory and our union with Christ".

But when he complained to his B.J.U. superior, "It is a shame that they don't spend less time on cultural attainment with arts and sophistication---and that Gospel Truth was more effective without curtains, |etc.", he was told that "gripping would not be tolerated" and that he would be turned over to the discipline committee.

This presents a true and fair picture of the "Worlds" most unusual university! in spite of all their phoney claims to the contrary.
