

link up with the theory and practice of Marxism-Leninism, and will build the revolutionary party that will lead the working class and its allies to victorious socialist revolution and construction.

BUILD THE REVOLUTIONARY WORKING-CLASS PARTY IN THE U.S!

FIGHT FOR SOCIALIST REVOLUTION IN THE U.S.!

CONCLUSION

We have attempted to do several things in this pamphlet. First, it was our intention to give the working class some brief knowledge of its history, its class struggle, and specifically, the revolutionary tradition and significance of May Day--International Workers' Day. Second, we felt it was of extreme importance for the working class to understand the present imperialist world crisis scientifically, and its effect (now and in the future) on the working class and other classes and strata. We also spoke to some of the real aims and tactics of the international bourgeoisie to deal with the crisis, and how these developments are leading to another imperialist world war. Finally, we spoke of the tasks that confront the working class and toilers of every land; to build genuine Marxist-Leninist parties, and an international organization to guide the struggle against imperialist exploitation, oppression and wars, for socialism and world communism.

But there is only so much that can be covered in one pamphlet. Our Marxist-Leninist study circles provide intensive study, discussions and analysis so that working-class men, women and youth can scientifically carry out the socialist revolution, and particularly at this time so that a revolutionary working-class party can be built. We encourage workers to join these circles. We also encourage response and criticisms to our views and analysis here. Pointers on style are also welcome. Was the pamphlet understandable? Did terms need further explanation? Finally, we ask for financial contributions of any amount to aid us in the work we are doing. The cost of producing this pamphlet for mass distribution was large, and the imperialist crisis makes funding difficult. So send your responses and contributions (checks, etc. payable to cash) to the box number on the cover. We would like to extend our contact with you, through pamphlets, leaflets, study groups. We can only develop consistent activity and study if you take the initiative, contact us, and join in the effort to build the party and carry out socialist revolution!

In the spirit of working class internationalism, world communism, and Marxism-Leninism, we greet you working men and women. **LONG LIVE REVOLUTIONARY MAY DAY--INTERNATIONAL WORKERS'DAY! LONG LIVE SOCIALIST REVOLUTION!**
