multi-million bestseller,
NONE DARE CALL IT CONSPIRACY

Gary Allen's

"SAY 'NO!' TO THE NEW WORLD ORDER"

GARY ALLEN

"Can you look in the mirror, or look into the faces of your children or grandchildren, and say that you were too busy to become involved, or whimper that it might be bad for business? Are you not willing to give your time and money when our Founding Fathers pledged their lives, their fortunes and their sacred honor to oppose the New World Order? Our National Anthem closes with the question, 'Does that star-spangled banner yet wave o'er the land of the free and the home of the brave?' If we are not brave, we *will not be free*."

Say "No!" to the New World Order details:

- promoting and financing the New World Order
- how the U.S. became number two in the arms struggle
- the media promotion of the New World Order
- the role of the international bankers to bring about the New World Order
- the roll of the CFR and Trilateral Commission
- the brainwashing taking place in our schools and churches to get the citizens to accept the New World Order

"This book is about some of the richest and most politically powerful people in the U.S. who, quite literally, want to abolish our country... They do not deny their intention to what is tantamount to repealing the Declaration of Independence and abolishing the Constitution, replacing these documents with something they themselves call the "New World Order."
