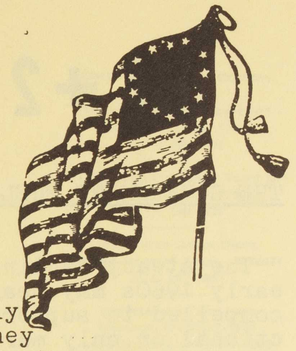
THIS AMERICAN PATRIOT IS FIGHTING YOUR FIGHT

ALTON WHEELER

Justice (money) is the name of the game. While a wealthy socialite, recently charged, tried, convicted, and sentenced to 40 years for two counts of attempted murder, remains free because of his money, patriot Alton Wheeler remains incarcerated since his arrest for attempting to exercise his constitutional rights. The socialite was allowed to remain free after a grand jury indictment, during the trial, after convicted by a jury, after sentenced to 40 years, and until his appeal is heard! (Could be two years!). Alton Wheeler has remained a political prisoner since charged by information, brought to court, during his "trial", and during his appeal. The socialite was charged with attempted murder of his wife...Wheeler is charged with willful failure to file. Does this example in comparative justice open your eyes any? Here is the secret: As long as you remain part of the "money system" and pose no threat to their power, you are eligible for "special privileges," especially if you have a bundle of their product (frn's). The EVIL NATURE of the system will always show compassion for the EVIL NATURE in others. Birds of a feather.....

So, where do we find compassion and help for men of honor, fighters of of Truth, defenders of our Constitution? Surely not from the system! The Good Lord provides the important things for Alton...faith, awareness, and inner strength. Alton Wheeler has chosen sides. and in that choice he has won a rare victory that no man can take away. It involves a victory of the soul, a love for Truth, standing firm for what he knows is right in his heart. Alton Wheeler is not a criminal, he is an American patriot that has discovered the truth. THEY know it and we know it and that is why they want him quiet.

But now...let's talk about US. Which system are you supporting? Does you mind and your mouth expose the type of person you really are or are you willing and ready to ACT for justice ? Alton Wheeler and his wife Anita need assistance from us in their fight. It is not only their fight but it is our fight too. Alton Wheeler is trying to put a stop to the system that will enslave and destroy all Americans for the sake of greed and power. His incarceration and appeal is costly... the Wheeler family needs our financial help..NOW. Don't let them fight OUR fight alone. Send your donation to: Anita Wheeler, 294 Litchfield Rd. RR-3, New Milford, Ct. 06776



IRS AGAIN MISLEADS THE PUBLIC

Between January and April 15th of this year, the IRS used the media constantly in an attempt to counteract the growing tax rebellion movement. Not only did they employ the fear and intimidation game, but they also released number figures to confuse the public. In the many newspaper and radio and t.v. spots, an estimate of 27,000 tax protestors was pounded into the broadcast. In fact, I counted 18 different times that the IRS used that figure in an attempt to make potential protestors think the movement was very small and a "fly by night" fad. Knowing that all lies eventually reveal the truth, I waited for them to slip up on their 27,000 figure. Lo and behold, on April 19 (right after the deadline) in the Fall River Herald the IRS again released their estimate of the size of the protest movement. In an interview with Howy Murzin, co-author of Irwin Shiff's latest book, How Anyone Can Stop Paying Income Taxes, Howy estimated the size of the rebellion at 10 to 15 million. The IRS immediately countered that figure by estimating 6 million!! Imagine that! A slight error in mathematics. They were only off by 5,973,000 from their original estimates. (And these people figure our taxes???)

A WORTHWHILE PROJECT

For those who pay taxes you might be interested in knowing that the National Highway Transportation Administration just spent $380,000 of your money to determine whether you are more likely to get hurt more if run over by a car with chrome bumpers than a car with soft plastic bumbers. I haven't learned of any results, but I bet they are smashing. If that doesn't make you wonder who should be under the wheels, how about the Chase Manhattan Bank's official bank check made out for $20,000 to "The Worker", the Communist Party's official newspaper in the U.S.? Representative Ashbrook of Ohio says that the check is just one of many.!!HMMMMMM

WORKING FOR TAXES

The Tax Foundation estimates that the American worker will work almost 4½ months next year just to pay federal, state, and local taxes. This estimate does not include what he loses through inflation, which would probably bring the actual figure to 5½ months. Slavery never felt soooooo good! Knowing that a great amount of state and local taxes goes to public schools it is comforting to realize that 40% of public school children in a recent poll thought that the Federal Reserve was part of the National Guard!

God help us!
