

Mr. Leslie Anders -- page 2

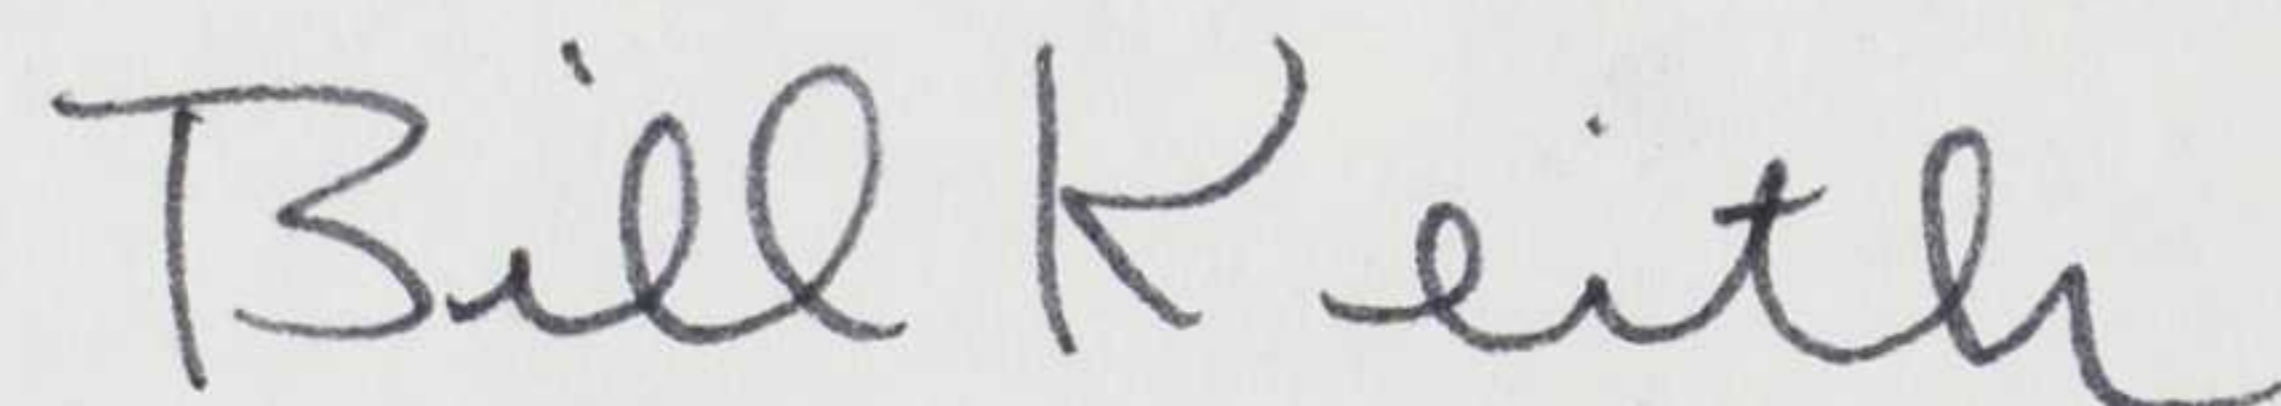

We have also helped university students in Poland and other countries in Europe by supplying them with good Creationist materials and have distributed hundreds of thousands of pieces of literature, reports, studies, etc. here in the states.

At present we are trying to raise the funds to put together a Teacher's Guide for high school and junior high school science teachers to help them understand the scientific data on Creation (within the framework of the U.S. Supreme Court decision).

Actually, our immediate needs are for funds to perform this giant task. But we believe we can do it.

God bless you, my friend, and let us hear from you again.

Sincerely,

A handwritten signature in cursive script that reads "Bill Keith".

Bill Keith, President
The Legal Defense Fund
