PORTO ALEGRE, BRAZIL

Professor Juvenal Dias da Costa Vidal
449 Lobo da Costa
Pelotas, Brazil

Dear Professor Vidal:

This letter is to thank you for the kind cooperation you gave Dr. Hults and Mr. Burgess, both of our Department of Physics.

They returned Wednesday and were highly pleased with their reception and with the help you and others in Pelotas gave them in carrying out their research project related to the November 12 eclipse.

As you can understand I thank you for a number of reasons. Not only was important research carried out through your kind help, but you have proven that the Partners of the Alliance program, through its cooperating state teams, can serve to develop mutual understanding between the people of Rio Grande do Sul and Hoosiers.

Sincerely yours,

Robert L. Carmin
Dean
