Dear Mr. Bowen:

I want to acknowledge receipt of the two books which you forwarded to me as a result of my request to Mr. Rodgers. These books were, as you may recall, the following;

1. Tratores e Seus Motores.
2. Nutrição Animal.

I want to inform you that little by little our library is taking shape. The texts that you sent will be valuable references for the students in the years ahead. Thank you very much for your attention on the matter and if your department receives anymore good agricultural texts in Portuguese we would certainly be able to make good use of them here.

Sincerely yours,

Timothy Johnson
