SUBJECT: Completion of the Book "PRINCIPLES OF PLANT  
BREEDING" by R. W. Allard - Contract AID 12-653

We have just received one advance reading copy of the book "PRINCÍPIOS DO MELHORAMENTO GENÉTICO DAS PLANTAS" by R. W. Allard, published by Editora Edgard Blücher Ltda., pursuant to Contract AID 12-653.

We have carried out a random examination of some 50 pages of this book, and we believe that from the graphic, editorial, and language points of view this book is satisfactory. It seems to us that all contract requirements were complied with, and that the quality of the book is excellent.

In order to issue approval for completion of services, we would like to hear your opinion. Upon examination of the book, please let us know if you concur with our judgment, or else if there is any reason that escaped our attention owing to which this book should not be approved.
