

AMERICAN ATHEISTS Greeting Cards

Atheists can now assist in our national effort to educate Americans about the seasonal origins of most holidays while at the same time expressing their love and thoughtfulness with greeting cards specifically designed and produced for American Atheists. These seasonal cards are 4¾ x 6½ inches on high-quality, textured paper and each features a nature scene which has appeared on the cover of the *American Atheist* magazine with an appropriate poem by Gerald Tholen.
