Talc Advisory

RARITAN, N.J. 08869

June 20, 1977

To: FDA Call File

Subject: FOI and Johnson's Baby Powder

At 11:00 AM on June 20 I spoke with Dr. Schaffner at the FDA concerning requests for safety data on JBP under FOI. I said that a short time ago the FDA had received a request for safety data on JBP under FOI. We had monitored the answer and the FDA had said they had no data.

I suggested that Johnson & Johnson prepare a summary package of published information on JBP and send it to the FDA. This package could then be used for FOI requests on the product. Dr. Schaffner agreed that it would be an appropriate step. I said we would prepare the summary package and forward it directly to him in a short while.
