July 10, 1973

Mr. Vernon Zeitz  
Windsor Minerals  
PO Box 680  
Windsor, Vermont 05089

Dear Vern,

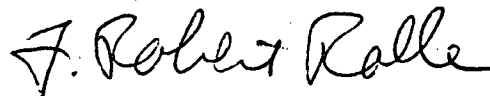

Following our telephone conversation, could you please make a bulk particle size comparison of the enclosed Wright Dust Feed Mechanism talc with that of JOHNSON'S\* Baby Powder, lot 228p.

When you have the results, could you please mail them special delivery to the following address:

Dr. A. J. Goudie  
5 Finley Road  
Edison, New Jersey 08817

Will keep you informed as we characterize this talc being used in our animal studies.

Best regards,

F. Robert Rolle, Ph.D.
