Dear A.C.S.:

I am a college student with an ever increasing awareness of what is really happening to this country. I write because I wish to learn about the work of the American Colonization Society. This area is flooded with publications and literature favoring left revolutionaries and radicals, atheists, blacks, abortionists, pornographers, etc., etc. I must ask you to respect the confidentiality of this and any future communications. Do let me hear from you.

In struggle!
