

ARYAN UNITY

In the battle for Aryan independence, we face many obstacles that we must overcome before we can rise victorious as true Aryan men and women. One such obstacle is unfortunately created by the one thing that makes the Aryan race unique and worth saving, diversity in thought and ideas. It is this special uniqueness that has divided the Aryan struggle into so many segments causing our objective of a true homeland for our people to wither and fade into the fog.

However, the uniqueness that is leading to our destruction, if utilized to its maximum, can be harnessed to become the greatest weapon that we have in our possession, the ability to attack the Zionist Occupation Government on all levels, without endangering the body of the movement. The reason it has been impossible for the Zionist Government to attack and completely destroy the Aryan Movement is our decentralized command structure. When ZOG attacks one arm of the Aryan movement its attack is limited and confined to one particular segment, leaving the other branches of the movement unscathed. Ideally, groups who are attacked by ZOG should immediately start regenerating and become even stronger than they formerly were. However, this has not been the case, instead of growing stronger, they usually become inactive due to lack of support from other White Nationalist groups. Thus we are gradually being destroyed.

There is absolutely no excuse for those who politely watch as their fellow White brethren are under attack. It doesn't matter if your political beliefs are not the same; all that matters is race. Those who

insist on arguing about intricacies of some conspiracy theory (right or wrong) while their Aryan kinsmen are being jailed and murdered, obviously have no real concern for their own people. If we are to win, we have to work together and provide assistance to those who require it. The most important ingredient of unification is communication. How can we help each other if we don't even know what the other is doing?

We no longer have the privilege to remain inactive. Within a few decades the Aryan Race will be so outnumbered that we will cease to have any tangible political power at all. We must become organized and start working toward our independence by doing the following:

1. Contact all White Nationalist groups in your area, and maintain regular contact with them. Also, give them assistance whenever it is required.
2. Prepare for hard times to come; store food, ammunition etc.
3. Create goodwill in your community by maintaining a higher standard of conduct.
4. Work in your community to expose ZOG.
