The Enemy of Liberty

WITHIN five years after its founding, the United Nations — the announced purpose of which was that of being a limited authority to prevent war — is attempting to control the minds of men! No greater danger to the freedom of man has arisen since the days of the claim of the divine right of kings. This danger is a greater threat to the citizens of the United States of America than the danger from any foreign military foe, for it might be that this control, together with the abrogation of the Bill of Rights, would be thrust upon the American people, accomplishing by treaty that which the Constitution would prohibit being accomplished by legislation.

Only a new birth of the understanding of the true nature of our freedom can save us.

"If, to please the people, we offer what we ourselves disapprove, how can we afterwards defend our work? Let us raise a standard to which the wise and honest can repair. The event is in the hand of God."
