WHEN "PUBLIC POWER" WINS YOU LOSE

Every time lobbyists for federal "public power" push a government electricity project through Congress, you are taxed to pay the bill!

You and other Americans have already been taxed about \$5,500,000,000 to pay for federal "public power." That's how much has been taken out of taxpayers' pockets and put into federal power dams and plants.

But that's just the beginning—if the federal "public power" lobbyists have their way. They want *more* of your tax money—\$10,000,000,000 more—so that government can take over a still bigger share of the electric business.

Yet they must know that America's hundreds of *independent* electric light and power companies are ready and able to supply all the electricity the nation needs—*without* depending on your tax money.

How can this needless spending of your taxes be stopped? As soon as enough people know what "public power" is *really* costing them, they will call a halt to it. The quickest way is to spread the word among your friends.
