

# BROWN HERALD

VOL. VIII. No. 140.

PROVIDENCE, WEDNESDAY, APRIL 12, 1899.

PRICE THREE CENTS.

## TUFTS TO-DAY.

### An Interesting Game Expected on Lincoln Field This Afternoon.

The second baseball game of the season of '99 takes place this afternoon when the Brown nine meets the representatives of Tufts. The game should be an interesting one as Brown has not yet settled into fine form and the Tufts nine is playing good ball. Last Saturday Harvard won from Tufts by the score of 5-1, after an exciting contest. The practice of Brown for the last few days has been sharp and encouraging. The men are acquiring more confidence in themselves and consequently play faster and cleaner ball. There is still large room for improvement in the way of team work, but this will only come with hard drill. The Brown team for to-morrow's game will probably play as follows: Richardson, cf; Bacon, ss; Le Stage, c; Detmers, 1b; Paine, 2b; Newman, rf; Clarke, lf; Sherlock, 3b; Washburn, p.

### Prof. Langdon to Lecture on "Cyrano."

At the suggestion of a number of students, Prof. Courtney Langdon is to give members of the University an opportunity to hear his lecture on "Cyrano de Bergerac." This lecture has been presented a number of times and has been received with marked favor. It will be given before a college audience this week, probably on Saturday night, and those who are planning to see Richard Mansfield give his presentation of Rostand's famous play at the Opera House will be glad to have the advantage of an introduction to the play from Prof. Langdon.

Arrangements for the lecture have been left in the hands of a number of men who were particularly anxious to hear Prof. Langdon in this lecture. It is altogether likely that the lecture will be given on Saturday evening of this week, at 8 o'clock, in the lecture room of Pembroke Hall. The lecture is intended for members of the University, including faculty and students, and any of their friends who may wish to attend.

Benjamin H. Dibblee has been appointed head coach of the Harvard football eleven for next year.

## Ineligibility and Professionalism Board.

Keith Donaldson, '99, President of the Intercollegiate Track Athletic Association and manager of the Princeton track team, announced the personnel of the new Board of Professors that was created to render the final decision in all cases of ineligibility and professionalism which are appealed from the undergraduate advisory committee. The professors who compose the board were chosen from the five universities whose teams finished in the first five places at the intercollegiate meet last fall, and are as follows: Professors George Wharton, University of Pennsylvania; H. B. Fine, Princeton; G. H. Hollis, Harvard; E. H. Richards, Yale; Frank Smiley, Syracuse. The undergraduate body consists of Gustavus T. Kirby, Columbia; Murdock Kendricks, University of Pennsylvania, and J. M. Magie, Yale.

### Baseball Coaching System

A new system of graduate coaching has been adopted by the Harvard team this year. Under the head coach will be a number of subordinates who will be detailed to the positions with which they are most familiar. These men will perform active coaching once a week and will hold frequent meetings to discuss the candidates and the plan of their development.

The head coach will be L. A. Frothingham, '93. Under him will be D. Scannell, '97, and J. D. Upton, '93, for catchers; Dr. E. H. Nichols, '86, J. Wiggin, '93. C. J. Paine, '97, and B. H. Hayes, '98, for pitchers; C. W. Smith, '86, for first basemen; J. Dean, '97, for second basemen; Dr. A. Quackenboss, M. S., '92, for third basemen; C. J. Sullivan, L. S., '95, for short stops; F. H. Hallowell, '93, W. H. Rand, '98, and C. C. Foster, '87, for fielders.

### The Second Checker Contest.

The college players will meet Pawtuxet Valley, another strong team, on Saturday evening. They have defeated South Providence in a team match, and of their playing elsewhere the Journal says: "One thing has been proved beyond a doubt—that the Pawtuxet Valley team contains some remarkably good checker players."

The first round of the championship tournament must be finished by Friday of this week.

## BIBLICAL RESEARCH.

### The Club Addressed by Professor Moore of Andover Last Evening.

Prof. George Moore of Andover delivered a very interesting and instructive lecture last night before the Biblical Research Club, in Manning Hall. His subject was: "The Development of Jewish Historiography." He took up the different stages in the development of the history, going over the simple narrative, pragmatics, moral fiction and written history.

The natural beginning of the literature begins with the tribes of Israel and Judah in the natural kingdom. In the second, written narrative gives us tradition of the rise of kingdom, and was probably written by Solomon while the facts were fresh in his memory.

The lecturer here spoke briefly on the motive of narrative history, which he said was not to teach lessons, nor to perpetuate the memory of great men, but ultimately is the pleasure of telling a good story. For this reason the earliest history singles out only the most interesting details, and the earliest writing was without a literary intention. From the early life of Solomon the narrative went back to earlier times and then to things which preceded the founding of the kingdom. Stories of the judges, invasion of Palestine by tribes, the crossing of the Jordan, the taking of Jericho. Suddenly there sprang up the story of the Patriarchs, and from the beginnings of the kingdom back to the beginnings of the human race they made a complete story. The authors were the first who were very skillful in telling the story or handling the language. There were varying stories, but these by comparison and mixture developed the history.

The pragmatic history passes over one step from a moralizing history to a creation of a historical fiction to be a being of the moral. The moral element was the sure retribution which comes when the law of God is violated. The Book of Chronicles, which was a compendium of Ecclesiastical history, the interest of which centres in the Temple of Jerusalem.

Next came the history told by moral fiction, such as seen in Sunday school books. The stories of Queen Esther, Ruth, the Persecution are all

## COLLEGE CALENDAR.

Wednesday, April 12—Baseball—Brown vs. Tufts, at Providence.

Saturday, April 15—Baseball—Brown vs. North Attleboro, at Providence.

Checkers—Brown Checker Club vs. Pawtuxet Valley, at River Point.

### Weather Forecast.

Washington, D. C.,

April 10, 1899.

For New England, Wednesday, increasing cloudiness and warmer, and possibly showers; increasing south winds.

HERALD Thermometer at 7 a. m. registered 42°.

good examples of this class of history. Then came the writing of history by the Greek Jews. The speaker was about to talk on the Ancient History of Israel, told by the Gentile teachers, but was compelled to stop for lack of time.

### Brown Checker Team Looses to Lonsdale.

The first contest in a series of match games with Lonsdale went to the latter by a score of 7 to 5, with 8 games drawn.

H. J. Ballentine defeated P. J. Garceau, 2 to 1, with one drawn; E. G. Hapgood defeated Henry Carr, 1 to 0, with two games drawn; H. M. Blaisdell made an even showing with Wm. McCusker. As had been expected, the members of the home team found themselves matched against strong and experienced players. With one regular member of the team absent, and two new players, they succeeded in making a very creditable showing.

The score was as follows:

BROWN.		LONSDALE.	
	Won. Draw.		Won.
Ballentine....	2	1	vs Garceau... 1
H. Blaisdell..	1	1	vs McCusker.. 1
Crane.....	0	1	vs Develine... 2
Brand.....	1	0	vs H. Henry... 2
Hapgood.....	1	2	vs Carr..... 0
A. Blaisdell..	0	3	vs Brown.... 1

PROVIDENCE, R. I., APRIL 12, 1899.

Entered at Prov. Post-Office as 2d Class Matter.

THE FRANKLIN PRESS, 63 WASHINGTON ST.

TO-DAY'S game should afford an opportunity of judging of the playing qualities of the '99 Varsity nine. The team has been making a satisfactory showing in practice, the play being unusually steady and at times brilliant. What is wanted now is team play that is as near like clock-work as possible, and this can be obtained only by the putting forth by the team of the most earnest effort and by a proper amount of interested support from the students, who are attending the games in greater numbers than ever before. While to-day's game is not one of the most important of the season, yet the cheering section should be heard from if the team is to do its best.

### Cornell Will Have a Marathon Race.

The Marathon race under discussion for some time at Cornell has at last been settled and the date decided upon. The race will be held on April 22d, under the auspices of the Cortland Cross Country Club. The course for the race will probably be between Cortland and Ithaca.

The distance between Cortland and Ithaca is slightly over twenty miles, so that the balance up to twenty-five miles will be made up in the vicinity of the campus. The committee has decided to accept no entry for the race unless the man entering has a certificate from a doctor certifying that his physical condition is such that he will be able to stand the race. All the prominent members of the cross country team have entered for the race with the exception of Yeatman. The entries so far are Berry,

Terrance, Bush, Sweet, Coates, Armstrong, Patterson, Storr and Richardson.—Pennsylvanian.

### International Chess.

The American team for the international collegiate chess tournament has been chosen. The men are: Meyer and Falk of Columbia, Cook of Yale, Young of Princeton, and Arensberg and Catchings, of Harvard. The match is to be played by cable on April 21 and 22, on both days from 10 a. m. to 2 p. m., and 3 p. m. to 7 p. m. according to New York time, while in London the hours are in the afternoon and in the evening. The English team is made up of three men from Cambridge and three from Oxford. The match will be decided in six games in which the men will play in the order of their strength. The American team will play at the Knickerbocker Athletic Club. Its cable expenses will be defrayed by the American Chess Magazine. The English players will be at the British Chess Club, London. Sir George Newnes has offered to pay their expenses and to act as umpire for the American team. The British umpire has not yet been named. The referee will be Baron Rothschild.

This is the first tournament of its kind ever held and if it proves successful, it will in all probability, be made an annual feature. In this case a cup will be given and the tournament which is now open only to men from Harvard, Yale, Princeton and Columbia, will be open to all the American colleges.

### NOTICE.

All men in college, *not* on the Glee Club, and who sing first or second tenor, will confer a great favor by at once handing their names to

ments due rewritten.

Friday, April 28. Third arguments  
due rewritten.

President of University of Cali-  
fornia.

The Providence Journal of yester-  
day has the following to say about  
Professor Wheeler of Cornell, a  
Brown alumnus:

"It is generally believed at Cornell  
that Benjamin Ide Wheeler, Profes-  
sor of Greek and Comparative Philol-  
ogy in the university, is contempla-  
ting accepting the Presidency of the  
University of California in the near  
future."

Prof. Wheeler attended the West-  
ern institution during the Easter  
recess to deliver a lecture and was  
absent about ten days. Since his  
return to Ithaca there has been a  
persistent rumor that he was invited  
to become President of the California  
University and that there is every  
probability that he will do so.

Prof. Wheeler said last night he  
was unable to affirm or deny the re-  
and would be unable to say anything  
on the subject for at least another  
fortnight.

Chicago will enter a team in the  
Pennsylvania open championship con-  
test to be held in Philadelphia, April  
29.

The Princeton Club of New York  
city has taken steps toward the con-  
struction of a club house.

### Old Gold as a College Color.

Old gold is a popular color among American colleges. It is combined with blue by Allegheny College, Franklin College, Franklin, Md., Trinity College, Hartford, Conn., and the United States Military Academy. The University of Missouri, Purdue University, Vanderbilt, Des Moines College and the University of Wooster, at Wooster, O., combine the old gold with black, Knox College, Kansas Wesleyan and Union Christian College, Merom, Ind., display old gold beside purple, while the University of Texas unfurls old gold and white. Chaffin University, Orangeburg, S. C., and Simpson College uphold old gold and red, while the University of Minnesota calls it red maroon and Williamette calls it cardinal. Gold is also used to considerable extent, being displayed singly by Beloit College, and combined with other colors by not less than fifteen other colleges and universities.

Cornell's record on the Southern trip is: Cornell 5, Virginia 14; Cornell 9, Oak Ridge 0; Cornell 14, Clemsen College 3; Cornell 2, Brooklyn League 20; Cornell 11, Mercer College 7; Cornell 14, University of Georgia 5.

W. C. Rhodes, captain of the Yale foot ball team of 1890, has been requested to act as head coach of next season's team.

Yale's record on the southern trip is: Yale 4, Manhattan 3; Yale 4, Georgetown 9; Yale 19, Hampton 5; Yale 3, Virginia 10; Yale 4, Virginia 10; Yale 2, Georgetown 4.

Forty-seven schools and thirty-five colleges have thus far signified an intention of entering the relay races held under the auspices of the University of Pennsylvania. This is the largest of any year.

Michigan defeated Chicago in the debate closing the Northwestern association contests. They debated the affirmative of the question: "Admitting it to be constitutional, is a federal graduated income tax desirable in this country." They received an unanimous decision.

The first practical test of the new criterioscope, which was recently added to Cornell's physical laboratory, was made a few days ago. A series of one thousand pictures of one of the classes coming from Franklin Hall, was taken at the rate of twenty per second, and the result was an almost perfect reproduction of the scene.
