

BROWN HERALD

DAILY

Vol. XX No. 84

PROVIDENCE, WEDNESDAY, JANUARY 25, 1911.

PRICE THREE CENTS

'VARSITY AT MEDFORD.

Brown Five Play Return Game with Tufts To-night.—Close Contest Expected.

The 'Varsity basketball team will play its return game with Tufts this evening in the Goddard Gymnasium at Medford. Nine men, including Manager Muir, will be taken on the trip: Captain McKay, McLyman, Scholze, Adams, Snell, Sullivan, Von der Leith, and Winslow. The team will leave for Boston at 4:07, and will take dinner at the Essex Hotel. The team will probably make the return trip on the 11:25 from Boston.

The game to-night promises to be as hard-fought as the game last Wednesday night in the Lyman Gymnasium. The 'Varsity has excellent chances of winning to-night, though the score should be close. Since last week's game, Brown has been defeated by Williams, and the Tufts team has also been defeated in the meantime by the Wesleyan five by a score of 42 to 9.

The Brown team has been practicing steadily since the Williams game, and should be in good trim to-night.

The line-ups of the two teams will be as follows:

Brown.	Tufts.
Sullivan, Winslow, r. f.,	
	l. g., Hart
McKay, Von de Leith, l. f.,	
	r. g., Jackson
Scholze, McLyman, c.,	Fisher
Snell, r. g.	l. f., Quilty
Adams, l. g.	r. f., Carpenter

Light Practice for the 'Varsity Last Night.

Last night's basketball practice was light, consisting only of a fast drill in passing and basket shooting in preparation for to-night's game. The second team did not appear on the floor, and no scrimmage was held.

Capt. McKay directed the work and coached the men on some of the weaknesses which the Williams game revealed. All the first-string men were out and were put through some vigorous work. The shooting was particularly accurate.

The men out were: Capt. McKay, Sullivan, Scholze, Von der Leith, McLyman, Winslow, Snell, and Adams.

ELECTION TO-DAY.

Athletic Association to Vote on Sophomores to Compete for Track and Baseball Managers.

The election of candidates for the positions of Assistant Manager of the baseball and track teams will take place this afternoon from 12:20 to 2:20 o'clock in the Smoking Room of the Union. Three men will be selected in each case from the list of names handed in to enter the competition for the managership. After the competition, the final selection will be made by the Athletic Board. The candidates are as follows:

For Assistant Baseball Manager: W. J. Bass, H. C. Banks, J. K. Burwell, J. T. Metcalf, E. A. C. Murphy, R. W. Field, W. J. Reed, E. C. Wattles.

For Assistant Track Manager: F. M. Bishop, N. B. Hull, C. D. Morse, H. K. Koopman, C. C. Parker, J. C. Phillips, C. H. Philbrick, R. D. Robinson.

Rev. H. Roswell Bates of New York to Preach at Vesper Service

At the third Vesper Service this afternoon, the preacher will be the Rev. H. Roswell Bates of New York City, minister of the Spring Street Presbyterian Church and Neighborhood House. Mr. Bates will also conduct the Y. M. C. A. questionnaire this evening, his subject being, "Rescue Work Among the Tenements."

The speaker comes from one of the largest and best equipped institutional churches in New York City, situated in the heart of the down-town district. The church conducts clubs and departments for people of all ages and tastes for religious, social, educational, and athletic purposes. It has kindergartens, a library, social and athletic clubs, besides doing its duty as a religious organization.

At the head of this institution is a corps of trained workers. Closely associated with Mr. Bates in the leadership of this work is one of the younger Brown graduates, Mr. John E. Flemming '06. Mr. Bates himself is a Columbia man.

Mr. Bates is one of the leading speakers of the Northfield Conferences each summer, and has charge of a large study class at the conference. He spoke at Brown two years ago at a North-

Continued on Page 4, Col. 3.

ARMORY MEET.

Brown Has Many Entries.—Frank, Rosenberg, Bartlett and Taber to Compete.

Plans are nearing completion for the Armory athletic meet, to be held next Saturday night. Brown has handed in 20 entries.

The handicaps of the entrants in the open events have been received from Frank McGrath, the New England official handicapper. The number of competitors has been increased, so that at present nearly 300 entries have been made. The meet will be held in the State Armory, and the first event will begin promptly at 7:15 o'clock. All contestants must be on hand at that time.

Among the new names entered are representatives from the Massachusetts Institute of Technology, the St. James' Athletic Association of Woonsocket, and the South Boston Athletic Club.

The entry list includes twenty names representing Brown, among whom are the following men: W. V. Winslow '11, J. J. Frank '13, D. L. Mahoney '13, D. R. Mahoney '12, Roberts '13, Roper '11, Blomberg '14, Taber '13, Tucker '14, Gould '13, G. A. Adams '12, Rosenberg '13, Droege '14, Kratz '13, Bartlett '14, Kulp '13, E. A. C. Murphy '13, G. D. Moore '11.

This will be the first indoor appearance of Frank this season. At practice he has been putting the eight-pound shot almost 60 feet, and from scratch concedes liberal handicaps to Bartlett, Rosenberg, Droege, and Murphy. N. S. Taber will enter the 1000-yard and three-mile runs.

The interscholastic events, in which various preparatory schools in and near Providence will compete, promise to be one of the most interesting parts of the long programme.

Freshmen Play First Hockey Game This Afternoon.

Manager Collins has arranged a game for the Freshman hockey team with the team from the Bryant and Stratton Business College to-day. The game will be called at three o'clock at York's Pond. The line-up of the Freshmen will not be decided until to-day.

JUNIORS HOLD SMOKER.

Prof. Randall Tells '12 Men of the Place of Engineering in College Course.

At the first Junior smoker of the year, held in the Union Smoking Room last night, Prof. Randall spoke on "The Engineering and the Academic Man." A large number of men were present, and the interesting talk and the following social time made the smoker a distinct success.

Prof. Randall traced the development of engineering as a study, and mentioned the fact that those pursuing this work had been looked down upon by those studying the classics. The demand for skilled men for engineering work became so great that technical schools were established. The standards of admission to engineering schools have been lower than those for academic schools, but the requirements are gradually becoming the same. The tendency is appearing for the engineering student to take a general course first and later to specialize in engineering subjects.

Prof. Randall said that this was the ideal education, first to get a broad foundation in general knowledge, and then to specialize in some one line of work. He said that after getting this foundation, a man taking engineering subjects would derive as much culture as though specializing in philosophy or any of the classics.

'Varsity Relay Selections Narrowed to 5 Men.—Class Teams.

Coach Huggins, of the track team, made the final selection of the men to represent the University in Saturday night's relay race at the Armory athletic meet, yesterday afternoon. The final trials were postponed from Saturday because of the slippery track, which prevented running during the latter part of last week.

Practice was held Monday and Tuesday, and the choice was gradually narrowed down to five men last night.

The three men who are sure of places on the 'Varsity are Capt. Marble '12, F. V. Young '11, and F. E. Miles '12. It is probable that either Jarvis or Jetter will be chosen as fourth man to run in the race against Worcester Tech. Saturday night.

Providence, R. I., Jan. 25, 1911.

A Great Gathering.

Providence is to be the meeting place shortly of a rapidly growing and increasingly influential national organization, the Religious Education Association. There will be assembled a gathering of distinguished Americans such as this city rarely has the honor of entertaining. Men of widely differing religious affiliations will speak from the same platform, and participate in a common cause. The problem of religious education, whether in the home or at school, is one which in this day and generation challenges the attention and best efforts of the nation's best men. The imparting of a mere moral code, no matter how excellent, is not enough. The vital touch of real religion is necessary if America's future generations are properly to live up to and improve the inheritance of the past. It is the most effective means of awakening a true national religious consciousness that this Association aims to find. Mr. Silcox will be glad to reserve seats for Brown men at any of the coming gatherings. He should, however, receive applications for reservations before to-night. As the meetings are sure to be crowded, those who plan to attend any or all of them should insure themselves in this way against the possibility of being unable to find a seat.

Pres. Faunce to Address Alumni in New York and Washington.

President Faunce left last night for a week's absence; during which he is to address various alumni bodies. On Thursday he will speak before the New York City alumni, and on Saturday he will address the alumni of Washington, D. C.

He will fill the pulpit of the Rev. Harry E. Fosdick in Montclair, New Jersey, Sunday, Jan. 29. Rev. Ortleby B. Parsons, pastor of the Hope Street Congregational Church, will have charge of the chapel services until the

return of President Faunce on Wednesday, Feb. 1.

Prof. Brown Makes Report to Conservation Commission.

At a recent meeting of the State Conservation Commission, held in the rooms of the Department of Geology in Sayles Hall, Professor Charles W. Brown, who is superintendent of the Natural Resources Survey of Rhode Island, made a report of progress and exhibited maps showing a classification of the land in Providence and Kent Counties. These maps, on a scale of five inches to the mile, show by colors almost at a glance the character of the utilization of all the land and its possibilities for practical use. Professor Brown states that these are the first land classification maps issued by any state.

Besides the bulletin which, as a study in Economic Geography will contain the results of this classification of the land resources of the state, another bulletin will show the water resources. A third will be on the game birds of the state. This is being prepared mainly by I. R. Sheldon '10, and will deal to a large extent with the shore

QUALITY AND PRICE

If you are searching for bargains, consider quality first and price afterward. Low prices do not always mean bargains; in fact, the lowest priced good, as a rule, are the most expensive in the end.

We have made reasonable reductions in the prices of our winter Suits, Overcoats, Raincoats, Trousers and Fancy Vests, to clean them all up now; we do not intend to carry them over to another season.

This enables you to purchase the very best clothing made, at a price as low or lower than you are asked to pay for the ordinary kind.

While it is true lots are broken in sizes, there are still among the entire lot sizes to fit anyone.

All new goods made up for this season on new and up-to-date models, strictly guaranteed as to quality and satisfactory wear.

Our Shirt sale still continues. All fancy shirts, plain or plaited bosoms, attached cuffs to close.
