

understand what the Christian Heritage Institute can do for your children and for America.

You may be wondering if I have considered the cost of such a massive project?

And my answer to you is "Yes" and I have also considered the cost of doing nothing while atheistic influences continue to brainwash your children with secular humanism.

I'm sure you can clearly see where I stand...I'm a mother of four, and I want my children to know that God is the supreme ruler of our world and our nation...

...that America was founded on God-given principles and only if we retain a stronghold on those Godly principles will we remain "one nation under God."

I have considered the cost at great length, and I will not let God down. Nothing can come between my love for God or my will to do what is right...

...and continue fighting for decency and morality.

Yes, I do need your support more than ever before.

Your gifts of \$10, \$25, \$15, maybe even \$100 will be a vital part of restoring what America's history really is.

You will be serving God by preserving what He alone has done to make America the great nation she is.

Here is how you can help me immediately...

...pray to God about what you can do to help me and then, write out a check to Anita Bryant Ministries for \$10, \$25, \$15, maybe even \$100 or whatever you can spare.

When I receive your gift, I will be able to begin purchasing, researching, writing, and publishing precious historical volumes, now long out of print, that the liberals and atheists have tried to bury these last two decades.

I will do my best to find every historical volume or printed matter concerning the true Christian heritage of this nation.

Imagine the impact this will have on our citizenry... we will be reviving their true identity in America.

But I cannot do it alone...you must feel as strongly as I do about this project or my campaign to "Revive Our Christian Heritage" will be to no avail.

So please do not hesitate to help and pray in this matter. We cannot afford to allow our children to be
