

LORD GOD OF HOSTS...
BE WITH US YET!

\$ ¢ \$ ¢ \$ ¢ \$ ¢

All human history teems with sad stories of nations decaying; falling into oblivion under the weight of greed, avarice and political mismanagement by despots...

A fundamental problem in AMERICA today, both from a religious and political point

of view is the removal of poverty, homelessness and destitution from our midst as a people.

There is no reason why these should be continually regarded as an inevitable part of our AMERICAN 'way of life.'

Remember---The "WAR ON POVERTY?"We lost!

Throughout the Law & Prophets, we read the deep concern our God always has for the poor, the fatherless, and the widow---This concern permeates the teaching of Christ and His Disciples.

Both the OLD & NEW TESTAMENTS in their exposition of the science of Money, teach the true doctrine. For within the Biblical true monetary system, is the essential mechanism to make a 'people' prosperous and happy; NOT POOR AND MISERABLE!

Because of our Biblical past...Shall the UNITED STATES OF AMERICA now paint a page of human history more dark than that of ancient heathen nations which have crumbled and fallen by being pulled down by the very hands which should have been instrumental in upholding it?

The crime wave sweeping our nation, wherein each offense is a violation of one or another of the Ten Commandments, should make each one of us consider and ponder---Ask why? Anxious to learn the facts pertaining to this flood of wickedness sweeping over our society...

Behold that foul place called Wall Street! ...Growling, shouting, stinking; a ghastly heap of fermenting bricks; pouring out poison from every pore: a great bottomless pit.

Unless the hand of Providence intervenes, checking this mad, mad gluttonous race for money, no matter what process obtained; it appears we as a nation are soon to be spewed out upon the bitter shoals of spiritual disgrace...

Blind guides now lead us; our nation and people are endeavouring to reach for the stars without our original guide...We are being plunged into the dark sea of Humanism, where each one becomes his own 'god.'
