

A Note on Recommended Reading

The books listed as recommended reading on the opposite side of this sheet are must reading for Project subscribers. No single book presents the entire Project theory. The raw material for the Project theory must be sought from a variety of sources. Crucial data are often found in books whose overall theory of the ruling class/conspiracy is opposed to the Project theory. Other points are confirmed in books not even written from a conspiratorial perspective. See Project back issues for reviews. Project Back Issue Catalog: \$2.00 Full Set: \$45.00 @ \$3.00 each.
