

Tears come to my eyes when I think that if I were too cowardly to carry on in the struggle against Communism that I would be, in effect, helping the enemy to crush our nation and that one day our children would have to live under an un-Godly atheistic communistic dictatorship. Sometimes as I kneel and pray to my Lord and Saviour Jesus Christ for guidance and courage, I truly believe that He gives me the spirit to rededicate myself and the will to carry on.

Your help is needed though. Often I lie awake, unable to sleep, worrying about the unpaid stack of bills lying on my desk, wondering where the funds will come from to pay the next days postage. Oftentimes I wonder if people really care what happens to their nation and to the future of our children and then I think of all the dedicated patriots like you who have fought side-by-side with me these past years. Thus far you have not failed me and I know that you will not fail me now.

Contributions are urgently needed for postage, past due bills, and to help rid our nation of the Communist double agent Kissinger. All who respond to this letter will receive our special report entitled "Kissinger, Rockefeller, Kennedy" A documented account of their plan to overthrow America by 1976!

Fill out the attached coupon and rush it to the nearest mail box and attach to it a gift which equals your good conscience. The way to groom the conscience is to pray and then do what you are led to do. That is good enough for me. If every person who receives this letter does that well, we shall continue to carry on even as we have been carrying on.

For God and Country!

E. William Gaedtke,
Advisor

P.S. I am enclosing a self-addressed envelope which requires no postage on your part. Our postage bills have skyrocketed and I know patriotic organizations that have been put out of business because they were afraid to spend the postage. I am going to spend the postage and I am going to spend the money to get the word to you if I have to sell or mortgage everything I possess. I would rather die on relief than to desert this Cause.
