**Subject: Turnover of Mobile Seismic Station and Training
of Bolivian Technicians.**

Reference messages discuss turnover Mobile Seismic station
presently properly on and operated by Geotechnical Corp. near
Penas, Bolivia.

To Bolivian authorities represented by father Ramon Cabre,
San Calix to observatory.

Embassy Aira, and USMIL group here have no objection this
project provided US Air Force prepared to supply funds for
maintenance of equipment, supplies and necessary salaries and
expenses operations.

Embassy understands from August 26 letter from Bates, chief
Vela Uniform Branch, advanced research projects agency, DOD-
to cable that latter's proposal then in final stages of eva-
luation. This proposal involves at bee year budget slightly
in excess of 100 thousand dollars. Embassy repeats that these
funds will have to come from DOD, as Bolivian Government has
no funds for this purpose.

Father Cabre has provided following names of candidates for
course in Dallas beginning 19 October. Raul Jimenez and Andres
de Santa Cruz. Embassy asking father Cabre airmail addition
info requested your 302148Z.

FYI Geotech representatives here believe they could provide
practical instruction on site, and question usefulness theo-
retical course in US in view candidates limited command of
English.
