

---

When you think about your investment in  
a better future—

—CONSIDER:

- \* What the "Cold War" costs you—in taxes, in controls, in loss of freedoms, in fear and distrust—at home and abroad.
- \* Has appeasement **ever** led to peace?
- \* Have arms races **ever** led to peace?
- \* The awful potential of atomic, hydrogen and other modern weapons.
- \* The desire of the vast majority of all men and women, here and abroad, for real permanent peace.
- \* How will your generation go down in history?
- \* Is there **any** cause **more** compelling than that of peace and freedom?
