

Brothers and sisters, it is only in the peace of
united black families in a united black nation
that we will no longer suffer confusion and
lonliness AND AND AND AND

For only if we realize the spiritual nature of the
body before death can we realize that our
words, deeds, songs, dances, Creations,
gruntings and groanings mean very little to
the universe AND AND AND AND

We is mostly water, we is mostly space, we is one
among billions in an infinite sea of time AND AND

There is men who trys to become immortal thru
building empires, writing they names upon
things or building monuments MMMPH

But the nature of the world is strange indeed MMMPH

You see, the ancestors of African tribesmen that
do not know how to write are more revered than
the ancestors of many of the riches men in the world
MMMPH

It is on the brightest days that we live and succeed
as many MMMPH

As individuals we has failed in loneliness MMMPH

We says on those days, none of my wife's children I does
not want, love, protect and educate MMMPH

My wife's blood are good MMMPH

My friends is all of my blood and my friend's children
is of my blood MMMPH

I has killed the enemy that raped my wife MMMPH

I loves my fathers and mother MMMPH

I accepts the most difficult task my father offers me
with joy MMMPH

I has killed the enemy that enslaved my father MMMPH

I loves my father's peoples MMMPH
